PROFESSIONAL SUMMARY

Full Stack Developer with 2 year of experience in the IT industry with proficiency in all facets of front-end and MERN stack technologies. Eager to contribute creative and robust technical skills to the working environment.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer - April 2022 - Feb 2024
Critical Mention an Onclusive Company - Navi Mumbai

As a Full Stack Developer, significant contributions have been made to the development and upkeep of web applications employing Vue.js for the Front-end and Python Flask for the Back-end. Responsibilities encompass,

- Worked on the development of dynamic and responsive user interfaces using Vue.js, ensuring a seamless and engaging user experience.
- Utilized Vue.js components to modularize the codebase, promoting reusability and maintainability.
- Implemented robust RESTful APIs using Python Flask, facilitating smooth communication between the frontend and backend systems.
- Integrated third-party APIs(GIS) to enhance application functionality and provide additional features to users.
- Implemented and maintained comprehensive unit tests for the codebase.
- Implemented data migration scripts and optimized database queries for enhanced performance.
- Played a proactive role in identifying and resolving bugs and issues within both frontend and backend components.
- Collaborated closely with QA teams to understand reported issues, providing effective solutions and ensuring the delivery of bug-free software.
- Utilized Git for version control, ensuring a collaborative and organized development process.
- Possess a foundational understanding of AWS Cloud.
- Collaborated closely with a diverse team of developers in the US, fostering effective communication and teamwork.

Achievement:
- Employee of the Quarter for the month of April 2023

PROJECTS

Lybrate ○

Lybrate is a mobile healthcare technology company that developed an online platform to connect doctors and patients.

Tech-Stack: EJS, CSS, JavaScript, Node JS, MongoDB, Express JS
Areas of responsibility:
- Built the same UI of Lybrate in cart and landing page.
- Merged all the files of the entire project.
- Created a presentation for the project and published a blog "Hashnode".

A collaborative project built by a team of 4 executed in 6 days.
